## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/7/09 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. Claims 27-44 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 27 is vague. The last clause of the claim is confusing since it appears to say that the microparticles on the first and second test strips bind glycated albumin or total albumin but previous parts of claim 27 stipulate that only the first test strip binds glycated albumin and only the second test strip binds total albumin.

Claim 44 is vague. The preamble of the claim recites "using a point-of-care assay" but there is no mention of a "point-of-care assay" in the body of the claim being used. This phrase appears not to be necessary and thus could be deleted.
